TWIN POWER™ BATTERY TERMINAL ADAPTER KIT

NEW

- Machined from solid brass
- Corrosion resistant hardware
- Great for relocating battery leads for a better fit and easier access
- Additionally can be used to extend battery terminal height or position in tight areas

48-9972 **$7.95**

TWIN POWER™

XTREME CHARGE™ BY PULSETECH®

PulseTech's unique and patented PULSE technology increases the duty and life cycles of any size or type of 12-volt lead acid battery from 3 to 5 times!
Please do not mistake this for common "pulse Charging"... Through a unique dual action process, this unique and patented Pulsing technology works in unison with our patented charge algorithms to not only charge your battery but also removes, and through regular use, inhibits damaging sulfation crystal growth within your battery. This ensures your battery's ability to accept and release as much charge as possible keeping your new batteries in like new condition while older batteries often improve performance dramatically.
All of PulseTech's products employ their signature "Pulse Technology" and work with all types and sizes of 12-volt lead acid batteries including flooded, fill and charge, gel, AGM and maintenance free battery types.

PULSETECH® 12-STATION BATTERY MAINTAINER

- Battery inventory maintenance system - keeps up to 12 batteries at peak power performance indefinitely
- Safely provides trickle charge to all lead acid battery types: standard, AGM and Gel types
- Cleans battery plates of damaging sulfation while in stock waiting for sale or installation
- Increases battery life by 3x longer
- Prevents normal loss of power no matter how long the battery sits unused
- 2-year manufacturer's warranty

15-0916 $279.95

XTREME CHARGE™ BATTERY MAINTENANCE SYSTEM

- **Increases battery life by up to 5 times!**
- Connect it and leave - safely charges and maintains battery indefinitely
- Maximum 2.5A charge rate (5.0A effective)
- Properly charges all lead-acid batteries: standard, AGM, and Gel types
- Microprocessor control constantly evaluates battery and delivers appropriate charge
- Exclusive Pulse Technology removes sulfation to extend battery life - even while connected to motorcycle/vehicle
- User interface features 12 L.E.D. status indicators
- Weatherproof design
- High impact plastic housing with rubberized base
- 5-year manufacturer's warranty
- Xtreme Charge single station 5-stage charger includes charger with fuse protected quick disconnect battery clamps and lugs

15-0915 $99.95

Accessories	P/N	Retail
25' Extension Leads	15-0918	$9.95
Leave on Cable Adapter Leads with eyelet lugs	15-0919	6.95
Replacement Cable Clip Leads	15-0920	6.95

X2™ XTREME CHARGE® 2-STATION BATTERY MAINTENANCE SYSTEM

- Doubles the charging capacity of single station units
- 2 fully independent internal power supplies
- Built-in wall mounting tabs on back of unit
- Input: 100-250V AC
- Maximum charge: 2.5A (5.0 effective) per channel
- Maximum power: 37 Watts per channel
- Bulk charge voltage: 14.8V per channel
- Functional output cable length: 8' per channel
- CUL listed
- Weatherproof rubberized base
- Includes (2) ea.: quick-connect clamp leads and leave-on eyelet lug leads
- 5-year manufacturer's warranty
- Xtreme Charge single station 5-stage charger includes charger with fuse protected quick disconnect battery clamps and lugs

15-0921 $189.95

XTREME CHARGE™ QUICK BATTERY TESTER

- Tests 12-volt batteries and alternators
- Fast, safe and simple to use
- Displays open circuit voltage with a % of charge L.E.D.
- Remote battery testing capability with probes designed to work with leave-on charging cable set
- Displays normal or over-voltage alternator output with a Good or Bad L.E.D.
- Removable NEG probe tip for direct battery terminal testing
- 90-day limited manufacturer's warranty

15-0922 $12.95

15-0913

15-0912

BikeMaster® AUTOMATIC BATTERY CHARGER 900MA

- Small, wall mounted charger in plastic case
- Micro-processor technology safely maintains and charges batteries
- Automatically charges batteries in 3 stages
- Safety shut-off for reverse polarity and short-circuit protection
- Charges all types of powersport batteries
- Includes both alligator clips and quick-connect style battery connectors
- Input: 120V AC, 60Hz
- Output: 12V DC at 900mA
- Maximum charge: 14.8V
- Maintenance charge: 13.8V
- 5-year warranty

Description	P/N	Retail
Charger	15-0910	$34.95
Quick Connect Rings	15-0912	5.95
Alligator Clips	15-0913	7.95

KURYAKYN® L.E.D. BATTERY GAUGE

- An array of L.E.D.s indicating the operating voltage of the bike's electrical system
- Green L.E.D.s represent normal operating range of your charging system
- Amber warns the rider that the bike is not charging
- If the reading drops below 10v or exceeds 15v, a flashing red L.E.D. will alert the rider of an impending stall or the possibility of damage to the battery and/or sensitive electronic components on the motorcycle
- Simple 2-wire connection
- Compact size, about 2" x 3/4" x 3/16"
- Daylight sensor automatically adjusts the brightness of the L.E.D.s
- Chrome
- Mfg/N 4219

49-7898 $44.99

BikeMaster® CHARGEMASTER 365TD

- Triple mode, 7 stage charger
- Assesses battery connection polarity
- Analyzes and diagnoses battery condition
- Recovers mildly and/or heavily discharged batteries
- Bulk charges batteries quickly
- Monitors voltage retention and battery condition
- Maintains battery with low current if the voltage drops below a set limit
- Extra long cables for ease of use
- Secure-grip alligator clips
- Weatherproof fuse holder
- Permanent connectors with weatherproof cap
- 3 charge rates: Motorcycles (600ma), Cars/Boats (3600ma), Boost (For AGM batteries and cold weather charging)
- Suitable for AGM batteries that require a higher charge voltage
- Especially useful for charging batteries in freezing weather
- Backlit LCD display for use in low light conditions
- Displays real-time charging rate, including voltage and amperage
- Designed to be connected for months or even years at a time (winter storage)
- Battery condition monitor indicates if the battery is able to hold a charge or is in need of replacement
- Wall bracket and extra long cables for convenient garage use
- Suitable for all 12V battery types up to 130Ah including Gel, MF and lead acid

15-0917 $79.95

15-8254

OPTIMATE 3+

- Unique Battery Optimizer recovers deep discharged batteries
- Only smart maintenance charger in its category with a genuine 6-step charging program
- Comes with a unique weather resistant battery snap connector that has a battery protection fuse and an interchangeable connection set with alligator clips
- For all 12V lead-acid batteries (2.5 to 3.2 Ampere-hours capacity) that are dry-charged MF, factory sealed "wet" WF type or conventional starter batteries with filler caps. Also effective for GEL-electrolyte sealed, VRLA batteries

Description	P/N	Retail
Optimate 3+	15-8254	$59.95
Cigarette Lighter Adapter	15-8298	18.95
Wall Mount Bracket	15-8299	12.95
Extension Cable	15-8301	6.95
Water-Resistant Eyelet Cable with Fuse	15-8302	7.95

OPTIMATE 4+ UPGRADE NEW

- New upgraded desulfating charger
- Pre-qualification test: OptiMate 4 is now able to show the battery condition prior to charging
- New 2nd program: With automatic keyless activation, the OptiMate 4 DP will charge & maintain batteries in CANbus equipped bikes, now via the 12V port
- Low voltage pulse recovery: Now included for even more effective recovery of neglected and sulfated batteries

15-8255 $74.95

BATTERY CHARGER & ACCESSORIES

OPTIMATE 5+ NEW

- OptiMate 5: the all-in-one tool for 12V battery care at home.
- Diagnoses, recovers, charges, tests and optimally maintains, automatically
- OptiMate 5 retains all the fully automatic, 100% safe, easy-to-use characteristics, of the 1.5 million OptiMates produced since 1995, but adds a powerful 2.8 amp output to take care of larger batteries
- Forgot your battery throughout the winter? OptiMate 5 will recover it from deep discharge and optimally recharge it. Then it will check that the charge delivered is the best possible, before checking how well the battery can retain the charge and tell you its status, at a glance. It will then maintain your battery at full charge safely for months at a time and extend its life by up to 400%. Reducing waste, for a better environment. No wonder 10 major constructors recommend OptiMate
- Approved to UL & CSA safety standards for battery chargers
- Splashproof housing (IP54) with built-in wall mounts
- Includes 2 connection accessories: SAE-71 Weatherproof permanent ringlet connector and SAE-74 set of battery clips
- 3-year manufacturer's limited warranty

15-8303 **$89.95**

OPTIMATE 5+ 12V CANBUS SOCKET CONNECTOR NEW

- Length: 48" with weatherproof rubber cap
- Connector with CANbus socket/12V DIN socket as found on BMW and Triumph motorcycles
- AWG#18 UL / CSA approved SPT-2 cable
- Internal fuse
- Matched with 12V DIN socket (P/N 15-8307)

15-8305 **$19.95**

OPTIMATE 5+ WEATHERPROOF PERMANENT CONNECTOR NEW

- Standard 15A fuse in sealed fuse-holder
- AWG#18 UL / CSA approved SPT-2 cable
- Larger ring lugs
- Hook your battery up quickly & easily when not in use
- Keep your connector clean when riding by closing rubber cap

15-8302 **$7.95**

OPTIMATE 5+TM TO SAE CONNECTION ADAPTER NEW

- Allows TM (white plastic) connectors hook up to all SAE connectors
- Fits battery snap cord supplied with classic American chargers
- Standard 10A fuse in sealed fuse holder. AWG#18
- UL / CSA approved SPT-2 cable

15-8306 **$6.95**

OPTIMATE 5+ 12V WEATHERPROOF PANEL-MOUNT DIN SOCKET NEW

- Create your own 12V outlet and battery charger connection point
- Matched with Bike / Car 12V socket connector (mfg #TM-72)
- With weatherproof clip-on cover
- AWG#18 UL / CSA approved SPT-2 cable with ring lugs

15-8307 **$19.95**

OPTIMATE 5+ SAE TO TM - CONNECTION ADAPTER NEW

- Allows new SAE connectors to hook to original TM (white plastic) connectors AWG #18 UL / CSA approved with SPT-2 cable

15-8304 **$6.95**

OPTIMATE PRO 8 NEW

- Desulfate, recover, charge, test and maintain up to 8 batteries simultaneously
- Ideal for maintaining 6v and 12v batteries in the off-season
- Each bank/station operates independently and delivers 1.2 amps constant current
- Good for all batteries - STD, GEL & AGM (MF)
- Automatic detection and recovery of deep discharged or sulfated batteries
- Self discharge test (following charging) according to a set voltage parameter
- Long term storage charging
- International O.E. recommendations
- Voltage selection - 115 or 230V supply
- Includes 8 sets of SAE-74 battery clips and 8 x SAE-75 extension cables
- Compatible with all SAE accessories
- 2-year manufacturer's limited warranty

15-8309 **$699.90**

YUASA® 10-BANK BATTERY CHARGER/MAINTAINER

- Ideal for 12V conventional, maintenance-free, AGM, SLA and gel batteries
- Charges/maintains up to 10 batteries at a time
- 5-stage maintenance/float charge
- Prequalification battery test will check batteries before charging begins
- Built-in timer for battery protection

15-0517 $446.00

YUASA® BATTERY CHARGER

- High output changing current (4 amps)
- High voltage capable (20 volts) – designed to improve recovery of sulfated batteries
- 2 modes:
  – Fast mode for quick set-up
  – Normal mode, ideal for smaller batteries, initial activation and deeply discharged batteries
- Commercial grade
- Automatic shut-off
- Reverse polarity protection/spark-free operation
- Durable construction for longer life
- 3-year manufacturer's warranty

15-0515 $272.95

YUASA® BATTERY TESTER

- Designed specifically for powersports batteries
- Determines if battery needs to be replaced or just recharged
- Evaluates exact condition of battery in seconds and indicates pass, replace, recharge or retest
- Easy to use
- Includes protective rubber boot and quick reference Amp-Hr guide

15-0524 $272.98

YUASA® 6/12-VOLT 1.5 AMP 5-STAGE BATTERY CHARGER

- Fully automatic 5-stage charge cycle for efficient charging
- 6/12-volt switch
- Provides up to 16 volts to enable recovery of sulfated batteries
- Designed to prevent overcharging
- Charging and float mode L.E.D. display
- Reverse polarity protection
- Accessory leads and fused ring connectors included
- 3-year manufacturer's warranty

15-0512 $71.50

YUASA® AUTOMATIC 12 VOLT BATTERY CHARGER

- Outperforms any wall plug charger
- Fully charges battery automatically
- Maintains full charge indefinitely
- Spark-proof and reverse-polarity protected
- 3-year manufacturer's warranty
- Up to 16 volts for recovery of sulfated batteries

15-0511 $38.50

STREETFX™ BATTERY MONITOR

- Constantly monitors your bike's electrical charging system
- With ultra bright L.E.D.s at a glance you can tell if your charging system is working properly
- Compact and easy to install, includes simple 2-wire connection into fuse box or StreetFX™ power distribution module (48-0402)

48-0594 $24.99

BATTERY CHARGERS & TESTERS

SUPER SMART BATTERY TENDER® PLUS

- Charger automatically switches to Float Mode when fully charged
- Absolutely no danger of overheating or overcharging
- Leave it connected for months at a time if necessary
- Designed to charge AGM, sealed maintenance free, lead calcium and flooded batteries
- Manufacturer recommends checking battery fluid monthly
- 4-step charging (Initialization, bulk charge, absorption mode, float/maintenance)
- Spark proof
- Temperature compensated
- Short circuit and reverse polarity protected
- 10-year manufacturer's warranty

Description	P/N	Retail
Battery Tender 12V	21-2100	$64.95
Battery Tender 6V	21-2101	64.95
Rings with Fused Black Connector	21-2108	7.95

PINK BATTERY TENDER PLUS

- The PINK Battery Tender Plus is not just a pretty accessory, it has the same amazing functions and features as the original Battery Tender Plus
- A large percentage of the retail price will be donated to the National Breast Cancer Foundation. Help women across the world become better educated and prepared for the fight against breast cancer!
- 12-volt at 1.25 amp battery charger designed to fully charge a battery and maintain it at proper storage voltage without the damaging effects caused by trickle chargers. Included is a quick-connect harness for hard to reach areas
- Red and green lights alternately flash for reverse polarity, a bad DC connection, or a sulfated battery
- Will be available for a limited time

21-2099 $69.95

WATERPROOF BATTERY TENDER®

- 100% waterproof
- 12v-800mA "Super Smart" technology
- Spark proof, short circuit protection, reverse polarity protected
- Designed for use on all AGM sealed maintenance free, lead calcium and flooded batteries
- 3-year manufacturer's warranty

Description	P/N	Retail
Battery Tender	21-2116	$52.95
Rings with Fused Black Connector	21-2108	7.95
Fused Alligator Clamp	21-2103	7.95

DELTRAN® BATTERY TESTER

- Takes only seconds to measure battery condition
- No external power required
- Easy to use - requires only 2 digit type code
- Measures 2.3 to 30 AMP hour capacity
- Built in voltmeter - 8 to 19 volts
- Works on discharged batteries
- Reverse polarity protected - NO SPARKS, NO HEAT
- Durable, portable design for shop or field use
- Weighs only 1 lb.
- 2-year limited manufacturer's warranty

21-2119 $159.95

BATTERY TENDER CARRYING POUCH

- Holds Battery Tender Jr., Battery Tender Plus or Battery Tender Waterproof
- Keeps unit and accessories together in 1 place
- Protects units from dust and dirt

Description	P/N	Retail
7-3/4"L x 6-1/2"W x 2-1/4"H	21-2112	$5.95
8-1/4"L x 6"W x 4-1/4"H	21-2124	6.95
9-1/2"L x 8"W x 7-1/4"H	21-2125	8.95

SUPER SMART BATTERY TENDER® JR.

- This battery charger will fully charge a battery, then maintain the charge at the correct level
- The unit has L.E.D. lights to indicate the charging mode and is reverse polarity protected
- The Jr. comes with a 12 ft. output cord and a quick disconnect for ease of use
- 5-year manufacturer's warranty

Description	P/N	Retail
Battery Tender Jr. 12V	21-2102	$39.95
Battery Tender Jr. 6V	21-2120	39.95
Rings with Fused Black Connector	21-2108	7.95

PORTABLE BATTERY TENDER PLUS CHARGER

- 12 volt 5.0 amp or 2.5 amp charger
- Charge a normal motorcycle battery in 1-2 hours without overcharging
- 5-step microprocessor controlled charging program
- Reverse polarity and short circuit protected
- Spark proof with 72 hour timer
- 2-year limited manufacturer's warranty

Description	P/N	Retail
Power Tender Plus Charger	21-2117	$136.95
3-Pin Fused Connector Cable	21-2118	8.95

2-BANK BATTERY TENDER

- 12V - 1.25A per channel
- 4-step microprocessor controlled
- Fully automatic charging program
- Spark proof
- Temperature compensated
- 72 hour safety timer
- 2-year limited manufacturer's warranty

21-2122 $129.95

SUPER SMART BATTERY TENDER-SHOP

- Designed for use in the shop
- Available in 10 port outlets
- Same features as the regular Battery Tender
- Designed to charge AGM, sealed maintenance free, lead calcium and flooded batteries
- 72 hour safety timer
- 3-year manufacturer's warranty

Description	P/N	Retail

BATTERY CHARGER & ACCESSORIES

NOCO® GENIUS® BATTERY CHARGERS

- Smart, multi-step, fully automatic switch-mode battery charger and maintainer
- Automatically diagnosis, recovers, changes and maintains acid, gel and AGM batteries
- Best for small battery applications from 1.2-30Ah, such as charging your Motorcycle, ATV, Jet Ski or Snowmobile
- In addition to charging, the Genius® battery charger can effectively maintain 6V or 12V batteries
- Powered by NOCO's VosFX processor: the revolutionary smart processor utilizing sophisticated levels of intelligence to alter the charge process
- Rapid charging technology: charges batteries 2X faster than traditional linear battery chargers
- High-frequency, high-efficiency for a lightweight, compact charger
- Uses 1/2 the power of standard chargers
- Designed for safety: reverse polarity, short circuit, open circuit, spark proof, overheat, overcurrent and overcharge

Description	P/N	Retail
G750 (5 Step Battery Charger)	90-8160	$37.95
G1100 (7 Step Battery Charger)	90-8161	53.95
G3500 (8 Step Battery Charger)	90-8162	74.95

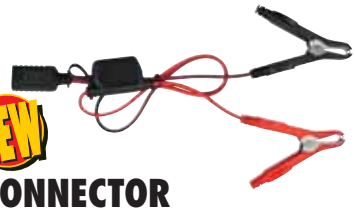
NOCO® GENIUS® ACCESSORY KIT

- Includes the Battery Clamp Connector, Eyelet Terminal Connector, 12V Plug Connector and 10′ Extension Cable
- Compatible with G750, G1100 and G3500

90-8174 **$42.95**



NOCO® GENIUS® BATTERY CLAMP CONNECTOR

- Works with NOCO Genius battery chargers and allows the battery chargers to connect quickly to any battery
- Replace a lost connector or add a set to a convenient location for easy charging
- The Quick Connect cable makes connecting the Battery Clamp Connector simple
- Compatible with G750, G1100 and G3500

90-8170 **$12.95**

NOCO® GENIUS® EYELET TERMINAL CONNECTOR

- Works with NOCO Genius battery chargers and allows the battery chargers to connect quickly to any battery
- Replace a lost connector or permanently mount one on your ATV, motorcycle, car, boat or any other vehicle for easy charging
- The Quick Connect cable makes connecting the Battery Clamp Connector simple
- Compatible with G750, G1100 and G3500

90-8171 **$10.95**

NOCO® GENIUS® 12V PLUG CONNECTOR

- Allows the battery chargers to charge and maintain your vehicle's battery by simply plugging into the 12V auxiliary plug/cigarette lighter
- The Quick Connect cable makes connecting the 12V Plug Connector simple
- Ideal for motorcycles where the battery compartment is difficult to access
- Compatible with G750, G1100 and G3500

90-8172 **$14.95**

NOCO® GENIUS® 10′ EXTENSION CABLE

- Extend the reach of your NOCO Genius battery charger and accessories with the GC004 10' Extension Cable
- With Quick Connect connectors on both ends, connecting the 10′ Extension Cable is simple
- Using this accessory may increase the battery charger time
- Compatible with G750, G1100 and G3500

90-8173 **$15.95**

NOCO® GENIUS® ADAPTER

- Allows a Noco® Genius® charger to be connected to a motorcycle with traditional battery charger leads

90-8175 **$7.95**

DELTRAN® BATTERY TENDER CIGARETTE LIGHTER ADAPTER

- Charge your battery by hooking it up to your car
- Jump start your bike using your car battery
- Connects to Battery Tender Pigtails (#21-2108)

21-2126 $7.95

BATTERY TENDER FEMALE POWER PORT

- Charge cell phones and GPS systems on the go
- 5 ft. cord length to reach saddlebags
- Plugs directly into Battery Tender Ring Terminal Harness (21-2108)

21-2127 $9.95

YUASA® BATTERY FUSED RING CONNECTORS

15-0528 $6.75

BATTERY VENT TUBING

- Vent tube for all batteries
- Cut tube to proper length

15-0504 $1.45

BATTERY TENDER® RING TERMINAL MASTER PACK

- Ring terminals
- 25 per jug
- Compatible with all Battery Tenders®

21-2123 $6.95

YUASA® MAINTENANCE-FREE BATTERY ACID

- UPS and D.O.T. approved shippable
- Sold in master packs of 4 bottles
- Each bottle packed separately

Description	P/N	Retail
YTX4L/5L/7L-BS (Pk 3)	15-0533	$42.56
YTX9-BS Acid Bottles (Pk 4)	15-0530	64.84
YTX20L-BS Acid Bottles (Pk 4)	15-0531	73.09
YTX12 Acid Bottle (Pk 4)	15-0534	66.53
YTX14 Acid Bottle (Pk 4)	15-0535	68.11

BikeMaster® JUMPER CABLES

- Designed for motorcycle terminals
- Cables measure 8 ft. in length
- Pouch included

15-0914 $22.95

MC ENTERPRISES BATTERY JUMPER CABLES

- High-quality wire with alligator clips
- Designed for motorcycle battery terminals
- 5 ft., 8-gauge, high-quality cables

11-0945 $23.99

ACTIVATOR BATTERY FILLER

- Controls acid flow
- Attaches to any standard acid pack tube
- For use on most batteries with push-in caps

Description	P/N	Retail
Battery Filler	15-0310	$29.95
Filler Adapter[1]	15-0311	9.95

[1] For Small filler holes

YUASA® JUMPER CABLES

- 8 ft., 8-gauge heavy duty cables
- Encased rubber grips for safer use
- Convenient storage bag

15-0529 $25.95

MOTION PRO® BATTERY ACID OVERFLOW CATCH TANK

- Prevents battery acid overflow onto chromed or painted surfaces, while still providing proper venting
- May be mounted anywhere near battery, along frame rail
- High-impact plastic catch tank 3/4" dia. x 4" length
- Includes cable ties and tubing

06-1007 $6.95

NGK SPARK PLUGS

NGK "V" PLUGS

- Unique design directs the spark where it can develop more rapidly
- Allows easier and more complete combustion of the air/fuel mixture
- The increased ignitability allows the engine to burn air/fuel ratios that would otherwise be too lean
- Sold by the box

Mfg/N	P/N	Qty/Box	Retail
BKR5E	38-0152	4	$3.00
BKR5E-11	38-0231	4	3.00

NGK SPARK PLUGS

AUTOLITE® XTREME SPORT IRIDIUM SPARK PLUGS

- Technologically advanced spark plugs
- Iridium enhanced .6mm fine wire design and patented platinum sidewire technology
- Provides better durability and a more focused ignition for better overall ignitability and optimum performance
- **Sold by the box, retail priced per plug**
- Replaces some standard plugs

ACCEL® U-GROOVE SPARK PLUGS

- Has a patented U-shaped ground electrode
- Produces a double wide, hotter spark to ignite high compression engines
- The sintered alumina insulator eliminates "flashover" and overheating
- Use the purest copper/nickel alloy electrode to produce a broad heat range

Mfg/N	P/N	Qty/ Box	Retail

Autolite® Spark Plug Numbering System
Designates plug families (Plugs with identical characteristics)
2 5 4 5
This designates a further sub-division within a plug family.
This designates a sub-division within a plug family, i.e. 124 indicates a suppressor plug within the 18mm, tapered seat and .460" reach group.
1. EVEN numbers designate a Resistor/Suppressor plug. For Non-Resistor plug types, subtract 10.
2. ODD numbers designate a Non-Resistor plug. For Resistor plug types, add 10.
Indicates heat range within a plug family:
2544 - Next coldest plug in this family.
2545 - Medium heat range plug in this family.
2546 - Next hottest plug in this family.
PREFIXES:
AP - Platinum Spark Plug
APP - Double Platinum Spark Plug
HT - Revolution HT® Spark Plug
XP - Xtreme Performance® Spark Plug
XS - Xtreme Sport™ Spark Plug
XST - Xtreme Start™ Spark Plug
A four digit number starting with a "4" indicates a series of spark plugs that have a special design copper core center wire.
SUFFIXES:
BP - Bulk Packaged Spark Plug
DP - Display Packaged Spark Plug

TAYLOR SPIRO CORE 8MM UNIVERSAL WIRE SETS

- Silicone boots with grips make it easy and safe to check or change spark plugs
- Straight coil boots with brass terminals
- Boots feature double spring locking terminals
- Resistance factor of 350 ohm/ft.
- 600° heat protection
- Highest voltage capacity and double-interlocking plug connectors
- Ferro-magnetic inner core provides 10 times the fire power of a carbon core
- 24" leads
- Includes two 24" lead wires and 2 black boots with brass terminals
- Order by the set

ACCEL® UNIVERSAL FIT WIRE SET

- 8.8mm performance wire set
- Graphite RF1 suppression core with 90° spark plug boots for dual plug heads
- Comes with 2 cables which must be cut to length

21-0702 $56.99

ACCEL® THUNDERSPORT 5MM IGNITION WIRE

- A radical departure from anything ever offered for the custom motorcycle builder
- Half the diameter of stock wire and extremely flexible
- Easy to run through cylinder heads, rocker covers and frame tubes for a totally hidden look
- 150 ohms per foot Ferro-Spiral wound alloy conductor delivers super performance
- High gloss 5 mm silicone jacket is rated for over 550° F and 60KV
- Packed with two 5 foot leads with 90° spark plug ends finished

MSD® POWERSPORTS 8.5MM SUPER CONDUCTOR SPARK PLUG WIRE

- Uses a special copper conductor keeping resistance under 50 ohms per foot
- Even with this low resistance, the wire retains high EMI suppression capabilities
- By wrapping the conductor tightly around a ferro-magnetic impregnated center core, an EMI choke is created keeping any interference inside the wire
- The Super Conductor wire is a high performance wire from the inside out
- Outer sleeve is a combination of silicone and synthetic materials for supreme resistance against heat, chemicals and abrasion
- Thick boots with more material also help guard against spark arcing to ground and special dual crimp terminals grip the conductor and the sleeve of the wire so there is no chance of the terminal pulling off the wire
- 4-cylinder universal kit is supplied with the spark plug terminal and boot installed, then cut the wire to length and crimp the coil side on
- MSD also supplies a Mini-Stripper-Crimper tool to produce a firm crimp

56-1307 $83.95

18 GAUGE WIRE

- Create your own wiring harness or use as replacement wire
- Color coded to match O.E.M. wire
- Sold in rolls of 25 foot

SHOW CHROME® ACCESSORIES ELECTRONICALLY ISOLATED TRAILER WIRE HARNESS

- Isolates the wiring between the motorcycle and the trailer to prevent electrical feedback into the motorcycle
- Plugs into existing wire harness, no splicing required
- Fits Honda GL1800 Gold Wing (01-10)
- Mfg/N 52-694

41-7413 $57.99

SHOW CHROME® ACCESSORIES DIGITAL 5 FUNCTION VOLT METER

- Includes voltage monitoring from 11.0V to 16.0V with thermometer, ice alert, clock, stop watch and lap counter
- Attaches with Velcro®
- Mfg/N 4-239

41-7536 $34.99

SHOW CHROME® ACCESSORIES INNER TRUNK LIGHT HARNESS

- Wiring harness is required when using Vanity Mirror #41-7344
- This wire harness is exact O.E.M. replacement and can be substituted with Honda's own vanity mirror and inner trunk light
- Fits Honda GL1800 Gold Wing (01-10, 2012)
- Mfg/N 52-603WI

41-7345 $33.99

DYNATEK FI CONTROLLER

- Plug in module that offers 3 user selectable base fuel curves that are designed to improve engine operation and can be modified to suit a wide variety of modifications
- Adjustments are made via 3 potentiometers that adjust the fuel curve in the proper ranges for the application
- Fuel mixture can be enriched or leaned as required
- Uses factory connectors for easy installation and there is no computer required for tuning or adjusting the fuel curves
- There are no modifications to the stock ECU and removing the Dyna FI controller returns the vehicle to the factory configuration

DYNA COILS

- Designed to replace stock motorcycle coils
- Produces spark voltages in excess of 30,000 volts
- Works with all Dyna S and Dyna III point ignitions, aftermarket electronic ignitions and factory electronic ignitions
- Direct bolt on in many cases

Application 12 Volt	P/N	Retail
HD Single output, 3 OHM	**21-7431**	**$158.99**
For most twin-cylinders. Japanese & HD DC1-1 Dual output, 3 OHM	**21-7411**	**158.99**
Mini Coil for most twin cylinders. Japanese & HD DC1-2 Dual output, 3 OHM	**21-7424**	**167.99**
Hon/Kaw/Suz, other 12 volt DC4-1 Dual output, 2.2 OHM	**21-7412**	**158.99**
12 volt DCS-1 Coil Bracket kit for BMW	**21-7500**	**19.99**
Single fire tach adapter T101	**21-7579**	**21.00**

DYNA ELECTRONIC IGNITION SYSTEMS

DYNATEK DYNA ARC-2

21-7272

- ARC-2: Asynchronous Restriking CDI - for 4 cylinder motorcycles
- CDI ignition is capable of producing 50,000 volts at the spark plug
- Will provide the strong spark needed to develop peak power for turbocharged, nitrous oxide and high compression applications
- Lightweight and compact ignition will be offered in kits for select motorcycles and a universal install kit for other models
- A breeze to install with no need to cut into stock harness

Description	P/N	Retail
ARC-2	21-7272	$329.99

Installation Kits

Universal	Year	P/N	Retail

DYNA 2000 DIGITAL PERFORMANCE IGNITION SYSTEMS

- Timing can be set without engine running
- 5 different advance curves
- 4 different retard modes work great for Turbo and Nitrous applications
- Rev limiter is adjustable from 8500 to 16000 RPM
- High energy system maximizes spark all the way to 16000 RPM
- Easy mounting and comes complete with wiring harness
- Built-in static timing light

SUZUKI	Year	P/N	Retail
Bandit 1200S	96-05	21-7291	$399.99
GSXR1100/750	86-92 A&OC	21-7291	399.99
Katana 600/750/1100	88-06	21-7291	399.99

A - Air Cooled
OC - Oil Cooled

DYNA SELECTRONIC IGNITION SYSTEMS

- Utilizes the time-proven Dyna III circuitry
- System is completely housed behind the points cover
- Timing with the Dyna S ignition systems is faster and easier than setting points
- Only have to set the timing once, when you install it
- "Hall effect" magnetic sensors, individual cylinder pair timing adjustment
- 1-year manufacturer's warranty

HONDA	Year	P/N	Retail

DYNA 3000 SERIES IGNITION

- 8 selectable advance curves and rev limits
- Status L.E.D. indicates power up, pickups, TPS (throttle position sensor) and MAP sensor operation where applicable
- Easier starting
- Mounts directly to factory location, 5 minute installation on most models
- Uses all factory sensors
- Reverse battery protection
- Retard mode for nitrous or blower applications

[1] 49 state models only, will not fit 04-06 California models

DYNA III ELECTRONIC IGNITION SYSTEMS

- Custom engineered for each motorcycle, includes color matched wires
- Offers individual cylinder pair timing adjustment
- No built in timing errors
- Accurate, reliable timing
- All Dyna III systems have "hall effect" magnetic sensors
- Sensors operate from 4.5 to 24 volts, temperature range of -40° to 300°F
- 1-year manufacturer's warranty

[1] Universal style replacement rectifier/regulator with wire leads only, no end connectors or plug ends. Generic instructions included
[2] This means some modification is necessary.
[3] Replacement rectifier for most ND fan cooled alternators
[4] Replacement voltage regulator for most ND fan cooled alternators. NOTE: Before replacing a 86-2110 or a 86-2111, be sure to check ohms reading on the rotor. A reading of 3.5 to 4.5 is required. Without sufficient resistance, failure will result and warranty will be void.

[1] Universal style replacement rectifier/regulator with wire leads only, no end connectors or plug ends. Generic instructions included
[2] This means some modification is necessary.
[3] Replacement rectifier for most ND fan cooled alternators
[4] Replacement voltage regulator for most ND fan cooled alternators. NOTE: Before replacing a 86-2110 or a 86-2111, be sure to check ohms reading on the rotor. A reading of 3.5 to 4.5 is required. Without sufficient resistance, failure will result and warranty will be void.

[1] Universal style replacement rectifier/regulator with wire leads only, no end connectors or plug ends. Generic instructions included
[2] This means some modification is necessary.
[3] Replacement rectifier for most ND fan cooled alternators
[4] Replacement voltage regulator for most ND fan cooled alternators. NOTE: Before replacing a 86-2110 or a 86-2111, be sure to check ohms reading on the rotor. A reading of 3.5 to 4.5 is required. Without sufficient resistance, failure will result and warranty will be void.
[5] Trigger coil not included

[1] Stator Coil

ARROWHEAD
ELECTRICAL PRODUCTS, INC.

ELECTROSPORT INDUSTRIES® STATORS/REGULATORS/RECTIFIERS

Stators
- 20% greater output than O.E.M. stator
- Triple insulated for maximum reliability
- Supplied with new electrical connectors and wiring sleeves
- 1-year manufacturer's warranty

Regulators/Rectifiers
- Upgraded rectifier bridge components
- Extra heavy-duty regulator circuit
- 1-year manufacturer's warranty

ELECTRICAL ADAPTERS

BikeMaster®
12V/15A MALE PLUG CIGARETTE LIGHTER

- Has a male DIN plug (popular on European motorcycles) to a US female cigarette lighter outlet
- Allows you to use your standard US cigarette lighter male plugs on European bikes

15-1666 **$8.45**

BikeMaster®
12V/10A TWIN ACCESSORIES 4-SOCKET ADAPTER

- Allows you to power 2 accessories with US cigarette lighter male ends and 2 USB powered devices
- Fused and unlike nearly all US male plugs, this one has an On/Off switch so you know for certain devices in the off position are not draining your battery

15-1667 **$22.95**

BikeMaster®
12V/15A STANDARD CIGARETTE LIGHTER SOCKET FOR POWER SUPPLY

- This is a hard to find item, especially configured for motorcycles and water resistant
- Power in cables have rubber grommets and the power out has a tight fitting rubber cap
- Mounts either through a hole drilled in body work or a bracket (not supplied)
- Because it has a ground wire, it doesn't need to be mounted to anything if you don't want it to be
- Perfect for the bikes that don't come with factory power outlets

15-1668 **$8.45**

BikeMaster®
12 VOLT POWER ADAPTER WITH MOUNT

- Allows access for 12V accessories where no power source currently exists
- Comes complete with plenty of cable and fitted with ring connectors
- Also fused to protect the rest of the machine's wiring
- Waterproof adapter for accessories like a cigarette lighter and best of all, comes with the mount

26-6184 **$22.95**

MC ENTERPRISES
CIGARETTE LIGHTER

- Mounting bracket included

11-0955 **$28.99**

BikeMaster®
12V/15A POWER ADAPTER CENTER

- Features 3 US cigarette lighter outlets and a USB port
- Designed specifically to work with Firstgear® Tank bags (but will work for anyone!)
- Motorcycle specific adaptor is designed to stay in the bag, when the bag is removed
- Comes with a quick disconnect pig tail which also fits all the standard US battery charger hard wire kits
- In case you don't have the Hard Wire Charger Kit, this adaptor comes complete with one
- Comes complete with a US cigarette lighter adaptor plug in
- Can run a GPS, MP3, iPhone, CB, etc.
- Features an L.E.D. light so you know you are getting power

15-1669 **$19.95**

MC ENTERPRISES
WATER-RESISTANT CIGARETTE LIGHTER

- Deluxe cigarette lighter has larger knob for easier handling with gloves

59-6942 **$39.99**

CARDO SCALA RIDER® G9™

- All new One+8 intercom allows you to toggle between 9 different G9™ users
- Pairing devices is easier than ever with new flash pairing...just bump 2 G9™ units together and they pair in a matter of seconds
- Cardo community web application allows you to invite friends to ride, personalize your G9™ settings and upgrade software
- Interchangeable boom and corded microphone options included
- Voice recognition technology for easy intuitive use
- Group Buzz allows you to send audio signals to up to 8 other G9™ users in group simultaneously
- Emergency call number can be programmed and defined for use in any country or region
- Multi device connects with options. Headset is compatible with the following types of devices:
  - A Bluetooth® enabled mobile phone (for hands-free communication)
  - A stereo Bluetooth® enabled MP3 player/iPod device, adapter or mobile phone (for wireless music)
  - A non-Bluetooth® enabled MP3 player (accepts MP3 cord)
  - A Bluetooth® enabled GPS unit (for in-helmet voice instructions) GPS must support headset connectivity
  - A Scala Rider® Q2™ headset (for hands-free communication up to 500m/1,640ft)
  - Scala Rider® Solo/FM/TeamSet™ Pro headset (for hands-free rider to passenger communication)
- VOX Activation: intercom calls, answer, voice dial, redial and call reject functions
- Includes an embedded FM radio with scan and seek features and 6 station channel memory
- Individual audio sources- each G9™ headset can conduct mobile phone calls or listen to the FM radio or MP3 audio independently
- Full Duplex- allows simultaneous talking and listening when using intercom connections
- Talk time up to 10 hours, standby time up to 10 days
- AGC Technology- headset automatically adjusts its own volume based on ambient noise and driving speed
- Noise canceling microphone
- Weather resistant design

NOTE: Results may vary according to terrain.

CARDO SCALA RIDER® Q2™ PRO

Each headset features:

- Bike to bike intercom communication up to 2,300ft[1]
- A2DP compatibility with MP3 players to listen to wireless stereo music[2]
- Multi-Device Connectivity Options (wireless or wired using jack connection with cable provided):
  - A mobile phone for hands-free conversations
  - A GPS device for in-helmet voice instructions
  - An MP3 Player for Stereo music
  - Another Scala Rider Q2™ PRO, Q2™ or G4™ headset for bike to bike intercom communication[3] (a Scala Rider Q2™ PRO headset can be actively connected to one Bluetooth device and 2 Scala Rider Q2™ PRO headsets at one time)
- Enhanced audio quality with amplified speakers
- VOX Technology- receive, initiate and reject calls by voice control
- Embedded FM radio with seek and scan functions and 6 user defined stations
- Full duplex- allows simultaneous talking and listening between bikers
- Talk time up to 8 hours, standby time up to one week
- AGC Technology- headset automatically adjusts its own volume based on ambient noise
- Noise canceling microphone
- Fits virtually all helmets, easy 5 minute self-installation

Description	P/N	Retail
• MultiSet includes 2 pre-paired Bluetooth® headsets		
Q2™ MultiSet Pro	**21-0126**	**$389.95**
Q2™ Pro (Includes 1 headset)	**21-0125**	**209.95**

[1] Results may vary according to terrain
[2] Stereo music requires compatible Bluetooth® and A2DP enabled MP3/iPod® device
[3] Bike to bike intercom communications requires additional Scala Rider® headset. Reduced operational range when connected to a Scala Rider Q2™.

CARDO SCALA RIDER® TEAMSET PRO

The new Cardo Scala Rider® TeamSet™ Pro, will greatly enhance the riding experience for rider and passenger on a single bike by featuring 2 identical, pre-paired rider and passenger headsets that provide rider to passenger intercom communication. Each headset can function independently of each other. Both users can make and receive their own voice activated, hands-free cell phone calls and listen to their own MP3 player/iPod® or GPS units.

Driver Headset Features include:

- Speak on intercom to passenger (full duplex)
- Initiate and receive own mobile calls by voice command
- Listen to own Bluetooth® enabled MP3 player (wirelessly or using wired connection with cable provided)
- Listen to own Bluetooth® enabled GPS device

Passenger Headset Features include:

- Speak on intercom to driver (full duplex)
- Initiate and receive own mobile calls by voice command
- Listen to own Bluetooth® enabled MP3 player (wirelessly or using wired connection with cable provided)
- Listen to own Bluetooth® enabled GPS device

Additional Driver and Passenger Headset Features include:

- VOX Technology- receive, initiate and reject calls by voice command
- Enhanced audio from dual ultra-slim speakers (less than ¼ inch thickness)
- Talk time up to 10 hours, standby time up to 7 days
- Utilize intercom function without a mobile phone
- AGC Technology- headset automatically adjusts its own volume based on ambient noise
- Noise canceling microphone
- Fits virtually all helmets, easy 5 minute self-installation

WARNING: Due to variability of the network signal, there may be some interference in the wire connections that are not caused by the N-Com system of the wire used. Functions of the Bluetooth® communication system depend on the model of the mobile phone used. Not all Bluetooth® phones enable simultaneously the intercom function with another Bluetooth® helmet and the connection of the mobile phone. The functionality of the intercom kit system with the mobile phone depends on the type of telephone used and the software version installed on it.

J&M® JMCB-2003 CB/STEREO/INTERCOM AUDIO SYSTEM

- Features a 40 channel CB radio, NOAA weather band, rider/passenger intercom
- Stereo music amplification from any Walkman®-type music device
- Mount it to your left handlebar with the proper bracket kit
- The complete system is on your handlebar
- The unit is water resistant so you won't have to worry about getting caught out in the rain
- Audio performance is superb, even at high speeds and that is most impressive considering it's compact size

Note: The JMCB-2003 is a J&M® 6-pin audio system that requires the pre-amplified microphone signal provided by Dual Mode (ECD/ICD/BCD/CD prefixed) helmet headsets along with the #HC-ZJM or #HC-PJM lower-section hook-up cord

J&M® DIGITAL MUSIC PLAYER/CHANGER FOR GOLD WING® 1800

- Exciting new product from J&M will plug directly into the CD music input plug on all 01-10 Honda Gold Wing audio systems, allowing you to store and play up to 1,000 songs from your music library, replacing the Honda CD changer at a fraction of the cost
- You can insert an SD card or USB thumb-drive with your favorite music stored, and toggle thru song after song using your existing handlebar audio system controls
- Control head mounts down into the base inside the tail trunk, in place of the CD changer
- This digital music kit includes a direct plug-n-play harness for the GL-1800 audio system, SD card reader/adapter, USB cable extension, pre-gummed Velcro® mounting strips and complete installation and operation instructions.

Note: When installing this unit on 09-10 GL-1800s, if you wish to use the XM satellite radio feature of your audio system, in conjunction with this digital music changer, you will need to purchase J&M XM-Sat/Digital Music Adapter/Switch Kit (21-8059)

21-8191 $159.99

SIGNAL DYNAMICS BACK OFF BRAKE LIGHT SIGNAL MODULE

- This compact, solid-state electronic module converts your ordinary brake light into an attention-getting, visual-alerting device
- Module causes 3 short flashes, stays on for 3.5 seconds, then repeats the cycle for as long as the brakes are applied
- Please note: May not work on bikes that use L.E.D. lighting
- Specifications: 12V DC, max. capacity 10A, sealed weather-resistant heat sink case, 2-1/4" L x 5/8" H x 1-5/8" W

48-1000 $37.95

SIGNAL DYNAMICS BACK OFF XP/BRAKE LIGHT SIGNAL MODULE

- Compact, solid-state electronic module converts brake lights into 2 choices of visual alerting signals when brakes are applied
- Mode one emits 3 short flashes followed by one long flash (3.5 seconds); Repeats as long as brakes are applied
- Mode 2 emits 5 short flashes followed by a steady on light; light remains on until brakes are released
- Specifications: 12V DC, max. capacity 10A, sealed weather-resistant heat sink case, 2-1/4" L x 5/8" H x 1-5/8" W

48-1001 $42.95

SIGNAL DYNAMICS BACK OFF WIG WAG

- Compact solid-state electronic module converts brake lights into 2 choices of visual alerting signals
- Mode one emits 4 quick, alternating flashes of left and right brake light followed by 3 short flashes and one long flash of both brake lights; pattern of 3 short flashes and one long flash of both lights repeats as long as brakes are applied
- Mode 2 emits 4 quick, alternating flashes of the left and right brake lights followed by 3 short flashes of both brake lights and then a steady on; brake lights remain on until brakes are released
- Designed for motorcycles equipped with 2 brake lights located side-by-side
- Specifications: 12V DC, max. capacity 10A, sealed weather-resistant heat sink case, 2-1/4" L x 5/8" H x 1-5/8" W

48-1003 $42.95

SIGNAL DYNAMICS BackOff™ BRAKE HOLD MODULE NEW

- Keeps your brake lights on when you are stopped or stopping so you don't have to
- Easy Installation: simply install the Brake-Hold Module inline with the wire leading to the brake light, connect to a switched power source and ground wire and tap a wire into your bike's speed sensor
- Large power capacity: 12 volts DC, maximum capacity 10A
- Sealed weather resistant heat sink case
- Compact size: 2-1/4"L x 1-5/8"W x 5/8"H
- 1-year manufacturer's limited warranty

Note: Your bike must have Electronic Pick-Up Sensor.

48-2000 $64.95

SIGNAL DYNAMICS PLUG & PLAY HEADLIGHT MODULE NEW

- Now there is no need to cut or splice wires in order to install a headlight module on your bike
- With the Plug & Play Headlight Module, simply select which harness is needed for your bike, then plug it all together

Note: Harness sold separately. Please consult your owner's manual or local dealer to find the correct harness for your motorcycle.

Description	P/N	Retail
Plug & Play Headlight Module	48-2001	$74.95
Dual H-4 Adapter Harness	48-2002	14.95
Dual H-7J Adapter Harness	48-2003	19.95
Single H-4 Adapter Harness	48-2004	12.95
Universal Adapter Harness	48-2005	12.95

YANA SHIKI TAILLIGHT INTEGRATOR KIT

- Makes your stock brake light also work as the turn signals, giving you the option to remove the rear turn signals and fender completely
- Use with or without stock turn signals
- Easy installation
- User option for pulsing brake light
- Works on almost all bikes with 2 side-by-side brake light bulbs and with factory L.E.D. brake lights including Sport Bikes, Cruisers and Touring Bikes

65-2648 $59.99

BADLANDS LOAD EQUALIZER

- Designed to return amperage "draw" to the correct factory specification when using custom signal lights
- May be used instead of variable load flasher on earlier model years
- Fits 91-Up H-D with self-cancelling signals

49-9200 $26.95

BADLANDS ILLUMINATOR PRO

- Built in automatic canceller
- Built in load equalizer
- Front run and turn signal for single filament bulbs, halogen bulbs and L.E.D.s
- Rear run, brake and turn signal function like the "Illuminator" module
- Emergency flashers without heating up
- Cancels at any time for quick lane changes
- Needed for L.E.D. use in turn signals
- Fits all metric and European bikes, except BMW, bikes with integrated brake system or Hondas using on/off front running lights

49-9225 $118.95

BADLANDS LOAD EQUALIZER III

- For Harley-Davidsons® with the TSSM Security/Alarm Module or TSM Turn Signal Module
- Intended for 1991 and up standard turn signal modules
- Will run emergency flashers for any amount of time
- Designed for parade use
- Solid state construction that is waterproof and produces no heat
- Works on any Harley-Davidson® with self-cancellers
- Fits 91-Up H-D models

49-9203 $69.95

BADLANDS LOAD EQUALIZER II

- Performs exactly the same function as the Load Equalizer I with the added feature of allowing you to retain emergency flasher capability
- This unit has a built-in thermoster which retains the resistor's heat while your bike is functioning in emergency flasher mode
- Made in USA by real bikers

49-9211 $34.95

SOUND OFF SAFETY PRIORITY LITES

- Turns existing rear turn signals into running lights and stoplights
- Will not affect turn signal function
- No bulbs to change

07-4047 $50.95

SOUND OFF SAFETY PRIORITY PLUS

- Turns stock rear turn signals into running lights and flashing stop lights
- Apply brake; running lights flash 1-2 seconds, then full brightness
- No interference with brake light operation

07-4051 $70.95

BikeMaster® TURN SIGNALS

BikeMaster® TORPEDO L.E.D. TURN SIGNALS

- Small oval, compact but powerful design, merges into the background unlike the bulky cheap O.E.M. signals
- Super Bright L.E.D.'s
- Waterproof, rubber grommets for wiring, and sealed lenses insure they work when you need them
- Quality cast metal body
- European CE approval, but not D.O.T. approved, therefore not for street use. Show use or off road use only
- Sold in pairs

Desription	P/N	Retail
Chrome	26-6218	$26.95
Black	26-6219	26.95

Sportbike Applications ON PAGE 317

AKO RACING L.E.D. INTEGRATED TAILLIGHTS

- Convert your motorcycle's tail into a stylish "shaved" look by eliminating your O.E. or aftermarket rear turn signals with an all in one integrated brake/running light/turn signal unit
- True plug-n-play application on most models. (Note: some applications will require the hardwiring of turn signal wires to the O.E. harness)
- Uses exact O.E.M. connectors for straightforward installation
- 2nd generation L.E.D bulb for a bright and crisp illumination
- Brake/running lights are independently powered and vice versa with the signal lights
- Built-in load resistor prevents speedy flash rates; thus providing for a true and natural looking flash

KURYAKYN®

KURYAKYN® LICENSE PLATE BRACKET

- Mount slides over the eye-sore version of a mount that comes standard on the fender
- Replaces stock turn signal with Kuryakyn's exclusive Silver Bullets™
- CAD-designed lenses on L.E.D. Silver Bullets™ provide exceptional, jewel-like illumination
- Includes a pair of slotted and visored bezels
- Fits 02-07 VTX1800C and 04-09 VTX1300C Models

49-7037 (#9256) **$199.99**

KURYAKYN TURN SIGNALS WITH LIGHTED CURVED LICENSE PLATE KIT

- Designed to flow around your stock taillight
- Replaces the stock bulky turn signal and license plate bracket
- Installation instructions included
- Fits 04-10 Road Star 1700 Models (ex. Warrior)

49-7587 (#9197) **$249.99**

KURYAKYN® SUB FENDER LICENSE PLATE BRACKET WITH L.E.D. CURVED FRAME

- Allows stock, custom or Silver Bullet turn signals to be installed
- Chrome frame is illuminated with cool white L.E.D.s built-in
- Fits all 08-10 Yamaha Raider models

Note: Turn signal mounts allow reinstallation of stock turn signals or others that mount with a 5/16" bolt or stud

49-6293 (#9257) **$189.99**

KURYAKYN® L.E.D. LICENSE PLATE FRAME WITH TRI-LIGHT

- Now you can add additional lighting and hide that ugly stock license plate mount at the same time
- Curved frame features a white L.E.D. license plate light and 3 red strip lights with running and brake functions
- Chrome finish and 8° of tip back
- Designed to mount to the existing factory license plate bracket
- Easy to install

49-1078 (#3152) **$149.99**

KURYAKYN® 4 AMP LOAD EQUALIZER

- Works great in custom applications where O.E.M. turn signals have been removed and replaced with low draw L.E.D. or small incandescent turn signals
- Mfg/N 4807

49-9419 **$17.99**

KURYAKYN® MULTI PLUG-&-PLAY HARNESS FOR GL1800

- Here's a great way to simplify and clean up the wiring from your Kuryakyn® lighting accessories
- Designed for either the front or rear, each kit has what you need to plug in up to 5 accessories in the front or 8 accessories in the rear
- Install 2 kits for 8 accessory connections in the front
- Fits all 01-10 (2012 front only) GL1800 models with Kuryakyn® accent lighting that connects to the O.E.M. harness at the mirrors or behind the license plate using Kuryakyn® inline Y Harness

49-7004 (#7302) **$19.99**

KURYAKYN® PULSATING BRAKE LIGHT CONTROLLER

- Activate up to 6 brake lights to flash automatically and then stay on with a single squeeze of your brakes
- Controller does not harm the life of your lights, so ride in confidence and be seen
- Fits all GL1500 & GL1800 models

49-7743 (#908) **$69.99**

• For 1-1/4" diameter tubing Fits Yamaha Road Star without Swingarm Covers (exc. warrior) and other motorcycles with 1-1/4" diameter swingarms	49-7390	$31.99

KURYAKYN® UNIVERSAL RUN-TURN-BRAKE CONTROLLER

- Makes the single filament or single circuit turn signals on the rear of your bike function as running lights, turn signals and brake lights
- Wires in beneath your seat and is intended for use with L.E.D. or Halogen Silver Bullets or other custom turn signals you have installed on your bike
- Will work fine with stock turn signals as well, but you will have to use red lenses
- Mfg/N 4710

Note: This unit is for 12V lighting systems only

49-9418 **$79.99**

KURYAKYN® TRIPLE WHAMMY™ RUN-TURN-BRAKE LIGHT KIT

- Make sure you are seen on the open road!
- Allows you to change your stock turn signal into Run-Turn-Brake lights with easy Plug & Play installation
- The optional flash mode flashes the taillights when the brakes are hit - catching the attention of anyone behind you
- Kit includes Plug & Play Run-Turn-Brake Controller and replacement lenses or bulbs to update signal to red

KURYAKYN® SILVER BULLETS™

- Universal Silver Bullets can be installed just about anywhere
- Halogen Kits includes red, amber and clear lenses
- 3/8"-16 hollow mounting bolt
- The power wire exits the light through the mounting bolt. The light is grounded through its mount
- L.E.D kits have clear lenses. Color is emitted by the L.E.D circuit board

Note: Do not wire Halogen Silver Bullets™ with red lenses to operate as running lights unless using Kuryakyn® #4859 (Run-Turn- Brake Controller). Excessive heat will result in cracked lenses

HEADWINDS® 2" BILLET SPOTLIGHT BARS/LOWER TREE COVERS

- CNC machined with 6061-T6 billet aluminum
- Designed with style and ease of installation under the lower triple tree
- The light bar profile matches the lower tree and features milled grooves to hide wiring
- Most bars are equipped with wire retaining clips to further ease installation
- Spotlight bars triangulate and stagger lights down and back giving the bike the appearance of motion without moving
- It doubles as a lower tree cover hiding the rough stock casting, giving the lower tree a finished billet look
- Made in the USA

ACERBIS® L.E.D. VISION HEADLIGHT

- Bright white L.E.D.s ensure exceptional visibility at night, and is produced by 2 groups of 10 L.E.D.s, and with two 20 watt spotlight/high beams placed in the center for optimal visibility
- L.E.D.s can be used as turn signals, just for show or however you want to wire them
- Material: nylon and polypropylene
- Transparent lens cover to protect lights
- The position of the mounting points allow ample room for the brake cable
- Universal fitting with anti-vibration rubber strips
- Plenty of room for instruments
- Not D.O.T. approved

Color	P/N	Retail

73-7321

ACERBIS® L.E.D. VISION HP HEADLIGHT

- First DOT-certified headlight on the market featuring L.E.D. light bulbs
- L.E.D. lights provide a sleek look while providing brighter, safer lights at night, enhancing the rider's visibility
- Due to the low energy consumption of the L.E.D.s, they may remain on while the bike is parked
- Material: nylon and polypropylene
- Transparent plastic lens cover to protect lights
- Universal fitting with anti-vibration rubber straps
- Total wattage: 50W
- Height of light beam is easily adjustable with a handle on the back of the lamp
- Comes with light bulbs and adhesive number plate sticker (sticker not applied)

PIAA
530 L.E.D. FOG & DRIVING LIGHT KIT

- Offers the beam control of a halogen lamp with the low power consumption and durability of an L.E.D. lamp
- L.E.D.s offer several advantages over their halogen counterparts including very low power consumption, compact size and durability
- Unlike most L.E.D. lamps currently on the market that aim the L.E.D straight out, the 530 lamps aim the L.E.D.s at the reflector. This orientation of the light source allows for far better beam control and output
- Combining the high output L.E.D.s with a computer designed multi-surface reflector gives a true high performance fog pattern in a lightweight, durable lamp that requires a fraction of the power used by a comparable halogen lamp
- Bulb Type: (2) 3 watt L.E.D. bulbs, 6000 Kelvin
- Kit Includes (2) lamps, (2) wiring harness, relay and switch

CYRON™ SOLID STATE L.E.D. TAILLIGHT BULBS

- L.E.D.s are 5 times more energy efficient than incandescent light bulbs, saving energy and prolonging battery life
- Bulbs are 1.75" tall, 1.05" wide and slotted bulbs are 1.7" tall, 1.05" wide
- Bulbs do not contain mercury
- Produce very little heat, conventional bulbs operate at 400°
- Each bulb contains 24 L.E.D.s on top and sides for a bigger, wider glow
- Available in single or dual filament and slotted
- Can be used with clear lens

BRITE-LITES HEADLIGHT BULBS

NEW

- High-quality replacement headlight bulbs; various exotic gases and coatings have been used to produce superior, super-trick lighting over standard, dull headlight bulbs
- Brite Lites are the industry leader in xenon gas-filled headlights, which produce a super-white HID-type headlight beam
- All Brite Lites are exact replacements for the stock headlight bulb and are available in standard wattages and in high-power versions
- Choose from several wattages, colors and the most-popular base types to fit most motorcycles and ATVs
- 2-pack Brite-Lites are packaged in a Tuff Pak storage case with full-color graphics
- Single pack Brite Lites are blister packaged on a full-color card

PIAA BULBS

PIAA SPECIFIC BULB DESIGN FEATURES:

- Metal bond that holds glass securely preventing cracks and leaks
- Heat resistant glass tube
- Welded focus ring assuring proper positioning
- 1-piece filament support for perfect positioning
- XTRA technology for greater output and performance
- 100% quality control testing for perfect performance
- 1-year manufacturer's performance warranty

PIAA

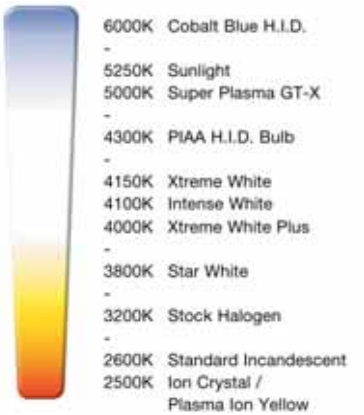
Super Plasma GTX - Low beam is a purple color shining at 5000K while high beam maintains extreme white performance at 3800K. A purple colored top coat gives headlamp a purple look even when lamp is off

Star White - Bulbs operate at 3800K while normal halogen bulbs operate at 3200K

XTRA - Technology that boosts the light from standard wattage to equal a high wattage

Xtreme White - With a 4150 Kelvin color temperature, Xtreme White bulbs give a cool white light output. The closest color yet to H.I.D. This white light gives the driver better color recognition on depth perception and better contrast than conventional halogen lamps

Xtreme White Plus - The blue top coat on the 9000 series bulbs add a slight blue tint to the lamp with no loss of performance. Xtreme White Plus bulbs are whiter, brighter and close to the color of sunlight



PIAA SWIVEL BULB DISPLAY

- 360° swivel base
- 2 clear Lexan® doors with 3 interior shelves
- Designed to sit on counter or shelf
- Locking doors for added security
- Measurements: 17.5"H x 7.25"W
- Holds up to 12 bulbs
- H4 Display includes 5 pieces each of:
  20-0134 Xtreme White
  20-0148 Star White
  20-0109 Super Plasma GTX
- H7 Swivel Display includes 15 pieces of the Xtreme White Plus Bulb

PIAA NIGHT-TECH BULBS

- Top coat and shade: exact positioning and focusing of the shade controls the low-beam pattern to prevent glare for oncoming vehicles thereby increasing safety
- Glass tube: quartz glass construction provides a high level of resistance to extreme temperature
- MO (molybdenum) foil: due to the similar coefficient of thermal expansion to glass, MO (molybdenum) foil is used to form a tight seal at the pinch sealing point
- Filament: low and high beam filament
- Pinch sealing
- Weld pins at terminals: Joining the bulb base with the terminal is accomplished by a patented welding process which is more resistant to heat and provides greater durability when compared to conventional soldering
- Up to 90% more light
- Up to 35m longer beam
- Up to 10% more white light
- Sold individually

WIXTECH ULTRA COOL SPOTS DUAL CIRCUIT L.E.D. BRAKE/TAILLIGHT BULBS

Incorporates dual circuit operation, meaning the central array is lit at full brightness all the time for normal running lamp operation. In addition, the outer L.E.D. array lights up to full brightness when brake or turn signal is applied. This not only results in brighter running lamp mode but a much more dramatic, highly visible, differential between running and brake lamp modes.

47-2300

47-2310

WIXTECH BRAKE/TAILLIGHT BULBS

- Chrome-plated built-in 45° reflector mirror for both side and rear light disbursement
- 45° angled L.E.D.s for more rear facing illumination in running lamp mode
- 25 total ultra bright L.E.D.s
- Water clear ABS weatherproof housing
- 26mm wide x 50mm long
- Available in red, red/white and amber
